Summary & Objective

Technical Support Engineer with 20+ years of customer-facing, engineering, and operational support experience across U.S. engineering, retail, manufacturing, and service environments. Experienced in issue triage, root-cause analysis, case lifecycle tracking, process documentation, customer communication, and service recovery across ServiceNow, SharePoint, CEBS, Microsoft 365, Excel, and workflow automation tools. Brings strong problem-solving, bilingual communication, and operational continuity skills to TSE support, service operations, and digital workflow improvement initiatives.

Professional Experience

FedEx Vietnam — Customer Experience Agent (RPI Creator & Monitor)
Ho Chi Minh City, Vietnam | 02/2026 – 08/2026

- Create RPI C-MOD control numbers in CEBS and submit SharePoint entries that trigger Vietnamese and English consignee notifications.
- Validate 12-digit AWB and shipment data; extract shipper/consignee contacts with Copilot/OCR and attach RPI, commercial, MSDS, and related documentation.
- Own the case lifecycle across SharePoint, Excel, ServiceNow, and CEBS by maintaining statuses, timestamps, ownership, and handoffs through pickup and closure.
- Monitor operational exception queues, flag SLA risks, and escalate through Station Supervisor, Operations Manager, and Regional RPI paths with recommended next actions.
- Coordinate with station, PUD, and inbound-clearance teams to close documentation gaps, arrange re-dispatch, and support CCTV/bag checks or DG approvals.
- Manage bilingual communications, standardized templates, service-recovery updates, case-note macros, and escalation notes for consistent execution.
- Coordinate with China and Taiwan teams for RPI monitoring and with Thailand teams for RPI creation, supporting consistent regional handoffs and operational visibility.
- Use Power Query, Excel, and SharePoint logs to track case aging, pickup-within-SLA percentage, and leading exception types; implemented Power Automate flows to consolidate AWB rows, normalize multi-recipient fields, group AWBs by recipient, and send one consolidated HTML email.

FedEx Vietnam — Customer Experience Agent / Supplies Coordination
Ho Chi Minh City, Vietnam | 02/2026 – 05/2026

- Collaborated with Malaysia and Singapore teams to coordinate supplies ordering and delivery across regional workflows.
- Documented and standardized order placement, tracking, and escalation procedures; developed guidance for typical quantities, item locations, and special or bulk requests.
- Instituted a “Data Not Found” check for missing or delayed orders, verified dispatch attempts, escalated unresolved account issues, and monitored lifecycle/allocation exceptions.

Customer Service Partner Specialist — Concentrix
Ho Chi Minh City, Vietnam | 2024 – 2025

- Provided B2B platform support, technical triage, billing coordination, and high-priority dispute resolution; escalated defects to engineering and logged root causes in ServiceNow.

Quality Control — Kizik | Warehouse Operations — Black Diamond
USA | 2022 – 2023

- Conducted statistical analysis, failure investigations, test-model development, and quality-record management while supporting high-volume fulfillment, inventory accuracy, and outbound quality checks.

Shift Lead / Sales Manager — AutoZone Inc.
USA | 2018 – 2020

- Owned assigned-shift operations and supervised/trained a team of 6+ across merchandising, sales, safety, cash handling, and inventory control.
- Managed Commercial/Hub fulfillment for corporate accounts so deliveries were made as promised; enforced loss-prevention and emergency-response procedures.

Research Assistant (SATCOM) — Brigham Young University / Linear Signal Inc. (Raytheon Sponsored)
Utah, USA | 2010 – 2014

- Led design, HFSS simulation, and fabrication of a broadband, high-efficiency dielectric resonator antenna array for satellite communications; achieved a 10% improvement in aperture efficiency over existing models.
- Developed and validated an electrodynamic model for low-loss radome materials at microwave frequencies and high temperatures; designed an electronically steerable array with dual RHCP/LHCP capabilities.

Research Assistant — University of Arkansas (MOLICS Lab)
Arkansas, USA | 2005 – 2010

- Applied microwave imaging for non-contact object detection and fabricated/tested RF devices under strict laboratory protocols.

Core Competencies

- **TSE Support:** Case triage, issue resolution, service recovery, and escalation handling.
- **TSE / Service Operations:** Incident classification, SLA tracking, workflow follow-through, and audit-ready documentation.
- **Technical Troubleshooting:** Root-cause analysis, system validation, and process improvement recommendations.
- **Platform Tools:** ServiceNow, SharePoint, CEBS, Microsoft 365, Excel, Power Query, Power Automate, and HTML/JS utilities.

Skills & Tools

CEBS | SharePoint | ServiceNow | Excel | Power Query | Power BI basics | SQL / PostgreSQL | Power Automate | JavaScript | HTML / CSS | Node.js | REST APIs | RCA / SPC | SLA / KPI | DG handling

Education

MS, Electrical Engineering
University of Arkansas
Arkansas, USA | 2008–2010

BS, Electrical Engineering & Mathematics
University of Arkansas
Arkansas, USA | 2004–2008

PhD studies (incomplete), Electrical & Computer Engineering
Brigham Young University
Utah, USA | 2010–2014

Certifications & Badges

ServiceNow: Customer Service Case Management, Incident Management, Problem Management, ServiceNow Administration Fundamentals, Knowledge Management, and JavaScript Fundamentals.

Languages

English (professional) | Vietnamese (native)

Technical Support & Workflow Automation Experience

Built a practical support-operations portfolio focused on process ownership, customer communication, issue triage, workflow automation, and service continuity. Leveraged FedEx operational support work, ServiceNow activity, Power Automate flows, Excel/Power Query analysis, and multilingual communication to create repeatable support patterns for case handling, notifications, exception monitoring, and SLA-driven follow-up.

Incident Handling

Log, categorize, prioritize, and resolve operational issues with consistent escalation and status tracking.

Automation & Reporting

Build workflow automations and data-tracking tools to reduce manual follow-up and improve support response quality.

Customer Experience

Deliver clear bilingual updates, service-recovery communication, and process guidance to maintain trust and continuity.

Selected Projects & Automation

Bulk Booking Logistics Suite
Jun 2026 | Vanilla JS, HTML/CSS

- Combined booking, driver-note, and bulk-request tools with AWB parsing, dimension checks, and approval-email generation.
- Demo: *bulkbooking.html* | README: *BT-utility-tools-demo*

Case Library & Templates Organizer
Jul 2026 | Vanilla JS, HTML/CSS, localStorage

- Self-contained web tool for a searchable repository of bilingual customer-service scenarios, email templates, and internal notes, with live editing, new-template creation, and locally saved customizations.
- Demo: *caselibrary.html* | README: *BT-utility-tools-demo*

Customer Request Automation
Jun 2026 | Power Automate, Power Apps, Lists, Outlook

- Automates intake, routing, assignment, SLA tracking, and notifications across teams.
- Groups AWBs by recipient and sends consolidated HTML emails with tracked workflow data.
- README: *BT-utility-tools-demo*

Logistics Supplies Order Automation
Jun 2026 | Node/Express, HTML/CSS/JS

- Validates orders, blocks duplicates, and creates audit-ready histories.
- Demo: *orders.html* | README: *BT-utility-tools-demo*

Publications

- **High-efficiency DRA array feeds for satellite communications.** *IEEE TAP*, 2014.
- **Broadband high-efficiency DRA for satellite communications.** *IEEE APS-URSI*, 2013.
