Professional Profile

Electrical and Computer Engineer with an M.S. and doctoral studies in ECE, combining customer operations experience with hands-on automation and software projects. Turns operational needs into practical workflows and decision-support tools, including Power Automate case routing, logistics validation tools, and project-analysis software. Experienced in B2B support, SLA tracking, cross-functional coordination, and Copilot/OCR-assisted document checks. Bilingual English/Vietnamese, with a 20-year U.S. academic and professional background. Virtual CV: https://BenBinhTran.github.io/ASPE

Professional Experience

FedEx Vietnam — Customer Experience Agent (RPI Creator & Monitor)
Ho Chi Minh City, Vietnam | 02/2026–08/2026

- Create RPI C-MOD records in CEBS and SharePoint for bilingual consignee notifications; validate 12-digit AWBs and use Copilot/OCR-assisted extraction to check contacts and RPI, commercial, and safety documents.
- Own case tracking across CEBS, SharePoint, Excel, and ServiceNow; maintain statuses, timestamps, owners, and handoffs through pickup and closure.
- Monitor queues and pickup-within-SLA performance; escalate risks through Station Supervisor → Operations Manager → Regional RPI, coordinating with station, pickup-and-delivery, clearance, and China/Taiwan/Thailand teams.
- Built a Power Automate flow to normalize multi-recipient SharePoint data, group AWBs by recipient, and send consolidated HTML notifications; use Excel/Power Query to track case aging and exceptions.

FedEx Vietnam — Customer Experience Agent / Supplies Coordination
Ho Chi Minh City, Vietnam | 02/2026–05/2026

- Coordinated supply orders with Malaysia and Singapore teams; standardized order tracking and escalation procedures and followed up on missing or delayed requests.

Customer Service Partner Specialist — Concentrix
Ho Chi Minh City, Vietnam | 2024–2025

- Provided B2B technical triage and customer support; documented platform incidents in ServiceNow and coordinated defect escalations with engineering.

Quality Control & Warehouse Operations — Kizik / Black Diamond
USA | 2022–2023

- Analyzed product test data, supported design and manufacturing investigations, maintained quality records, and performed inventory and outbound quality checks.

Shift Lead / Sales Manager — AutoZone Inc.
USA | 2018–2020

- Led assigned store shifts and a team of 6+; managed commercial account fulfillment, delivery handoffs, inventory, and service expectations.

Research Assistant (SATCOM) — BYU / Linear Signal Inc.
Utah, USA | 2010–2014

- Designed and tested satellite-communications antenna arrays; a dielectric resonator array achieved a reported 10% aperture-efficiency improvement.

Research Assistant — University of Arkansas (MOLICS Lab)
Arkansas, USA | 2005–2010

- Applied microwave imaging to non-contact object detection and fabricated and tested RF devices under laboratory protocols.

AI Agent Project

AI Contoso Agent Helper — Microsoft Copilot Studio
Private build; not publicly released | Copilot Studio, Dataverse, Power Automate, Outlook

- Designed a root agent to identify intent, collect caller name, machine model, and order number, then route requests to machine-order or product-support subagents.
- Connected Dataverse order records and an agent flow for knowledge-grounded product answers, order-status checks, and order-cancellation requests.
- Configured and tested an Outlook-triggered flow to extract order IDs, retrieve status/details, and reply to the original customer email with personalized information.
- *Project overview*

Core Competencies

- Workflow discovery and solution design
- Project coordination and delivery follow-through
- B2B customer success and issue resolution
- Cross-functional and international coordination
- SLA/KPI monitoring, risk escalation, and improvement

Tools & Technologies

Copilot / Copilot Studio | AI Builder / OCR | Power Automate / Apps | Microsoft 365 | SharePoint / Lists | ServiceNow | Excel / Power Query | Power BI | SQL / PostgreSQL | Go | JavaScript / Node.js | HTML / CSS

Education

PhD studies (incomplete), ECE
Brigham Young University | 2010–2014

MS, Electrical Engineering — University of Arkansas | 2008–2010

BS, Electrical Engineering & Mathematics — University of Arkansas | 2004–2008

AI & Automation Credentials

Microsoft Automate Agent in a Day — Power Automate and AI-agent workflow training. Certificate
Microsoft Learn: Copilot Studio agents, autonomous triggers, and AI Builder. Badges

Additional

Languages: English (professional); Vietnamese (native). **ServiceNow:** Customer Service, Incident/Problem, Knowledge, Administration, JavaScript badges.

Selected Projects & Work Samples

Customer Experience Request Management Platform
Power Automate, Power Apps, Microsoft Lists, SharePoint, Outlook

- Designed Forms-to-closure workflows with Switch/Condition routing by request type and language; Lists track owner, status, follow-up, and SLA.
- Added bilingual shared-mailbox notifications and a flow that normalizes recipients and consolidates AWBs into one email per consignee.
- *Project overview*

BT Project Builder & Evaluator
Go, PlantUML, SchemaSpy, AI-assisted project guides

- Created project-scanning tools for architecture diagrams, dependency analysis, progress reports, and structured quality assessment; one snapshot covered 367+ functions across 28 files, with AI Advisor project-recreation and function-order guides.
- *GitHub portfolio*

Unified Logistics Booking & Shipment Tools
JavaScript, HTML/CSS, Regex, unit conversion

- Parses CED/eOPS shipment data, converts units, and checks service, weight, dimension, and length-and-girth limits.
- Generates editable booking emails and driver notes; validates bulk-credit requests against the 300 kg threshold and whitelist confirmation.
- *Live demo* | *Project overview*

Order Automation & Case Library
Web application prototypes | Node/Express, JavaScript

- Order prototype parses requests, applies proportional category/item limits, prevents duplicate pending orders, and logs modified/VIP overrides with reasons.
- Case Library provides searchable bilingual templates with category filters, copy tools, editing, and local persistence.
- *Order demo* | *Case Library demo*

Publications & Leadership

Selected Publications

- “High Efficiency Dielectric Resonator Antenna Array Feeds for Satellite Communications,” *IEEE Transactions on Antennas & Propagation*, 2014.
- “Broadband, High Efficiency Dielectric Resonator Antenna for Satellite Communications,” *IEEE APS-URSI*, 2013.

Activities & Leadership

- Presenter/Mentor, International Culture Team (2005–2010); Coordinator, Cross Culture Mentor (2007–2010).
- Outreach Committee Chair, NWA American Red Cross (2009); Student Council, BYU Graduate Student Society (2010).
